Gallery 14 - Hamley Bridge Bakery & Café!

Hamley Bridge Bakery & Café began as Gallery 14 in February/March 2014, now 7 years ago! Why Gallery 14? To begin with we were basically a small café, gift and art boutique with a selection of light meals, cake and coffee at '14' Light Street. Having surveyed the community 6 months prior to opening we were well received as another diverse business opening in the small town of Hamley Bridge giving an employment opportunity to locals and sponsoring the community as opportunities present.

Rick and I had wanted to start a café when we first moved into Light Street late 2006, however, on hearing another couple were starting a café, 'Light Street Bakery', coincidentally in the very building we occupy, we shelved the idea not wanting to go into competition with another small business in a small regional country town which in reality we felt could not sustain two similar businesses alongside the enduring existing businesses.

An opportunity arose again some 4 years later in 2013 when the very same property was purchased as an investment by a local becoming a rental.

A small business in a small regional town certainly has it's challenges but determined to make a go of it I applied to the owner to rent the entire premises when residential tenants moved out early 2016, expanding the business into a true Gallery of Art, Homewares, Unique Gifts, Jewellery, Candles offering more café seating and even a BnB at the very back initially – 'a point of difference' for Hamley. This section was not opened up until May 2017 due to my heavy community commitments as a member of the Pinery Fire Recovery Committee and Pinery Fire Projects Committee as well as working part time in an Aged Care Facility in the Barossa while managing the café with reliable, dedicated and loyal staff.

2019 saw the café incorporate Tina's Hairdressing when the former salon building was sold, very recently opening up as an Occupational Therapy Service, yet another diverse business for the town and surrounds!

Move forward to 2020 saw a rent increase and then late March 2020 COVID-19 hit, impacting all businesses and for Gallery 14 it meant a drastic change, returning to it's former state, sadly packing up 'the Gallery' to focus on surviving COVID. Changing the way we operated to meet with a 'new normal', we remained open only closing for two weeks to pack up the Gallery into storage. The only help I was unbiasedly successful in was a COVID-19 Small Business Grant the WRC developed to help regional small businesses.

Still determined to exist we have expanded our menu yet again to add many more home baked gourmet goodies. A café name change gives renaissance, so thank you for helping us survive the many, many challenges we have, and still may encounter into the future.

Your being here today is why we still are! Thank You!
